

Furseweld Exothermic Welding adalah solusi efisien untuk penyambungan kabel tembaga maupun tape tembaga

Dengan Furseweld sambungan antar konduktor dapat dipastikan kuat dan mempunyai kualitas konduktifitas elektrik yang tinggi

Proses penyambungan dengan furseweld sangat mudah dan cepat:

Dengan Furseweld, hampir semua jenis penyambungan dapat di lakukan

- Plat Tembaga dengan Plat Tembaga
- Plat Tembaga dengan Earth Rod (Batang Elektroda)
- Plat Tembaga dengan permukaan besi baik rata maupun lengkung (misal Pipa yang besar atau Tangki)
- Kabel dengan Plat
- Kabel dengan Earth Rod (Batang Elektroda)
- Kabel dengan Besi Beton
- Kabel dengan permukaan besi
- Kabel dengan Rel Besi
- Plat dengan Rel Besi
